Chain Kulsantipong

has successfully completed the online, non-credit Professional Certificate

Google Data Analytics

Those who earn the Google Data Analytics Professional Certificate have completed eight courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for introductory-level roles in Data Analytics. They are competent in tools and platforms including spreadsheets, SQL, Tableau, and R. They know how to prepare, process, analyze, and share data for thoughtful action.

Foundations: Data, Data, Everywhere

Ask Questions to Make Data-Driven Decisions

Prepare Data for Exploration

Process Data from Dirty to Clean

Analyze Data to Answer Questions

Share Data Through the Art of Visualization

Data Analysis with R Programming

Google Data Analytics Capstone: Complete a Case Study

Stanford University

hereby certifies that

has completed all the requirements for and earned the

**Artificial Intelligence
Professional Certificate**

June 2024

Thomas W. Kenny

Associate Dean, Global and Online Education, School of Engineering
Executive Director, Stanford Center for Professional Development and Stanford Online

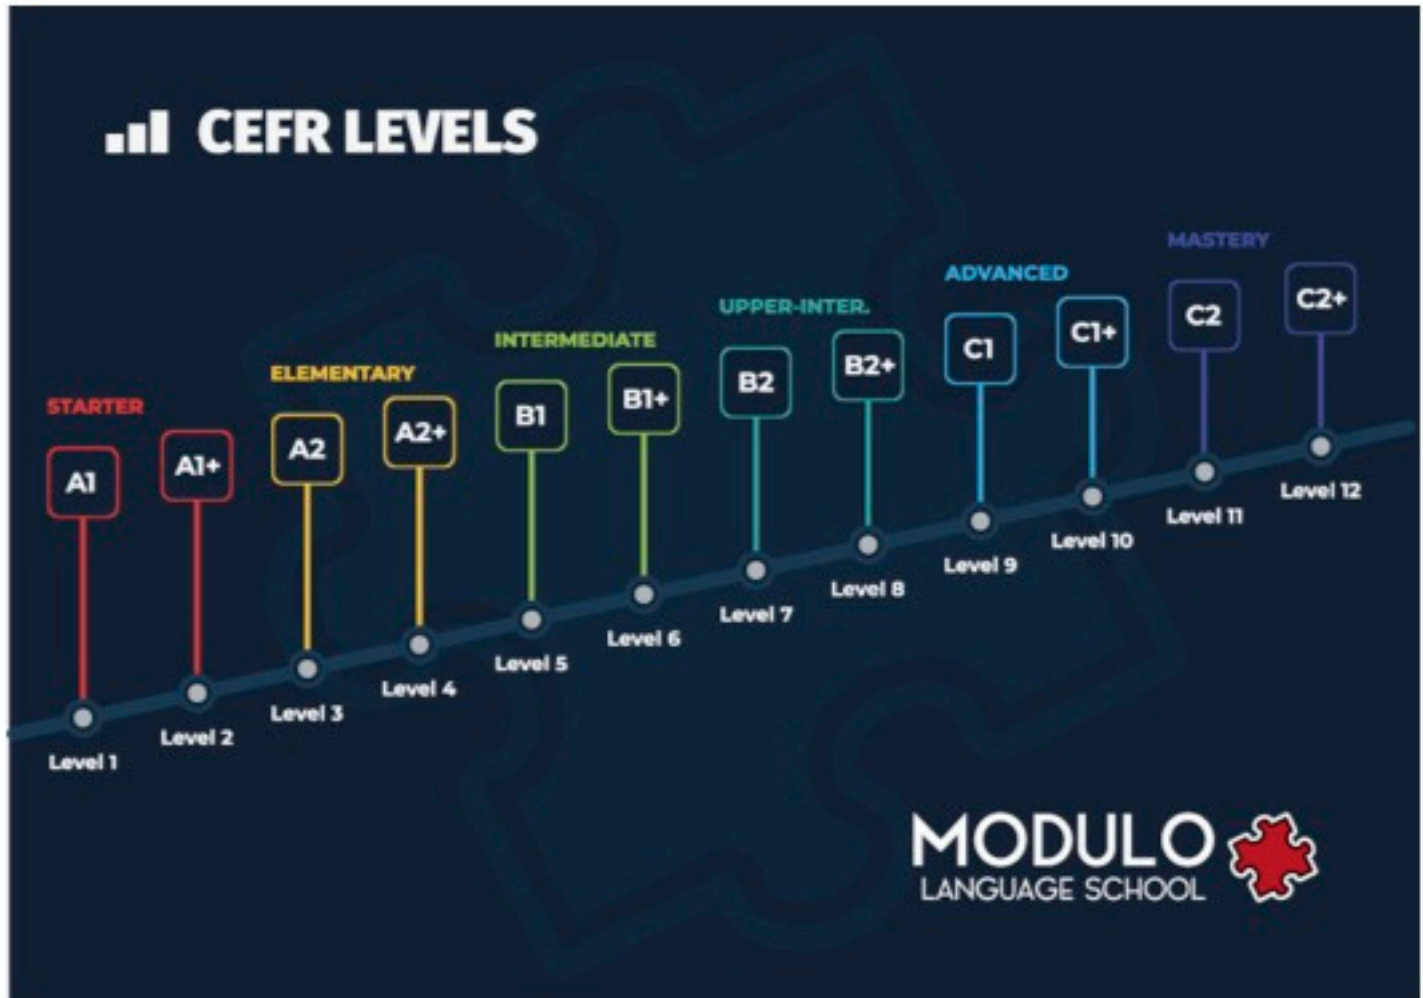

Thank you for taking the time to test with Modulo.
Here is a breakdown of your results:

Your **current** English level and the level you should be targeting **next**:

Current: **C1+ Advanced**

Next: **Lvl II (C2 Mastery)**

What it means: C2 level speakers have near mastery of the language, and have very little left to learn. This level is most often attained by people who had lots of exposure to the language, or even lived abroad. Classes would typically focus on more technical learning and practice similar to native-speakers.

Grammar level: C2 Mastery

Vocabulary level: C2 Mastery

Tenses level C1+ Advanced

Reading level C2 Mastery
