<https://www.linkedin.com/in/junjune>

Dear Sir or Madam,

To whom it may concern,

I'm glad to have the opportunity to apply for *the Motion Graphic Designer* job, advertised on LinkedIn. I'm attaching my cv and my showreel with this application to guarantee you that my qualification meets the company's expectations.

I have worked at EMPAG (Thailand) Co., Ltd or Emerge Clips Co., Ltd as 2D Motion Graphic Creator mainly and secondary as Director. Especially in the project Manabie - Learning App in 2019, I had a chance to manage a group of 7 staff in creating VDO motion graphics for learning English online in Vietnam and Singapore. In working on this project, I simultaneously took a leading role and the following role: storyboards, illustration, motion graphics, subtitle, and execution of some parts by myself to complete the project within the deadline. This role required highly skilled in After Effect, Illustrator, and Photoshop, a good understanding of animation and filmmaking principles, a good working under a tight schedule, having the capacity and skills to work independently and as a team. We smoothly achieved the project plan, successfully exceeded the estimated targets, and ranked 2nd place in the company's revenue growth of 2019. However, from 2020 until now, I had to work with the Japanese production team to create VDO advertising commercials. I create motion graphics in my primary job by following Japan agency's directions, and Japanese assigner's opinions in my company turn them into my motion style incentive and easy-to-understand design concepts of client's product. I don't think my idea is more significant than anyone —every feedback matter to me. My secondary work was training Thai junior creators. I had to direct the way to work easier and faster besides solving the issues from my experience if they have any questions or problems, reporting everything about the situation, and troubleshooting to the Japanese assigner. If some examples are interesting, I'll create pdf guidelines as a case study to share with others in the company. Thus, I will undoubtedly be reliable in handling this kind of task along with my new motion graphic designer position at your company.

I'm attracted to this role because I have an experienced in-house production team partner with a Japanese agency. I hope to demonstrate that I would be a good fit for this company with my proven skills, commitment to the role, and enthusiasm to learn new things. Thank you for your time and consideration. I look forward to hearing from you soon.

Yours sincerely,

Ms. Jitsupa Jaroenjit
